Report of Principal and School Improvement Council

Dear Parents and Supporters of Batesburg-Leesville Primary,

Each year Batesburg-Leesville Primary focuses on an initiative which could lead to promising results for our school. This year, "Building Relationships" provides a phrase for all stakeholders at BLPS to remember that if "We Work Hard, Work Smart, and Work Together," we can accomplish what we need to achieve.

The School Improvement Council and the faculty and staff worked together to meet the goals and objectives of the 2008-2009 School Renewal Plan. The most exciting goal that was achieved was earning an "Excellent" in the Absolute Rating category as well as an "Excellent" in the Improvement Rating on the Annual School Report Card. These ratings are a result of the hard work of a well-trained faculty, students motivated to learn, and supportive parents, district personnel, and our community. We believe that our future goals are very reachable with this continued combination of dedicated people.

BLPS continued to implement the State Improvement Grant which addresses discipline issues with positive interventions. We are proud to be able to say that more than 80% of our students respond positively to being rewarded for following the three school-wide rules—Be Safe, Be Responsible, Be Respectful. For those remaining students who require additional interventions to bring about good behaviors, behavior checklists were put in place for them with much success. To support the idea that our school is part of a bigger world that often needs our help, our students collected over \$17,000 to donate to worthy causes such as Trike-a Thon, Math-a-Thon, and Jump Rope for Heart.

We are excited about a new approach to teaching reading--the balanced literacy process. This new approach trains teachers to provide small group instruction on each student's reading level. The entire reading faculty participated in an in-depth training last summer. In addition, we were very fortunate to have the Superintendent and Board of Trustees commit monies to establish a leveled reader room which houses over 10,000 books for class instruction and to take home for reading practice. In addition, computer software opportunities were provided in the areas of reading, math, science and social studies through the upgrading of the software programs of "Successmaker" and through the addition of "Education City".

As we look ahead, we can not be complacent and become satisfied with mediocrity. We want our students to be able to compete with any other student across the country. A good work ethic, a strong academic base, and support from parents/guardians will certainly help in achieving our goals for the future.
